

### Features

- Ultra small size with innovative microstrip technology
- Available step value: 0dB, 1dB, 2dB, 3dB, 4dB, 5dB, 6dB, 7dB, 8dB, 9dB, 10dB, 11dB.
- High accuracy
- High performance low cost
- Impedance: 50 or 75 ohm
- Operation repeatability: 500 times each switch
- POM material in rotary switch, operating up to 85°C
- Smart size

### Specifications

|                       |   |                                     |
|-----------------------|---|-------------------------------------|
| Part No               | : | Attenuator-VA-5                     |
| Frequency Range       | : | DC to 2.7 GHz                       |
| Attenuation           | : | 0 to 11dB                           |
| Step Value            | : | 1 dB                                |
| Insertion loss at 0dB | : | 0.4dB at 2.7GHz                     |
| Attenuation Accuracy  | : | ±0.5 dB from DC to 2.7GHz (typical) |
| Nominal Impedance     | : | 50 Ω                                |
| Average Power         | : | 2 W                                 |
| Operating Temperature | : | -40 to +85(°C)                      |

| Freq. Range (GHz) | VSWR(:1) |      |
|-------------------|----------|------|
|                   | Typ.     | Max. |
| DC to 2.7         | 1.15     | 1.30 |

|                                                                                                     |                                                                                       |                    |       |   |   |
